BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. NEW LAW A new section of law to be codified
in the Oklahoma Statutes as Section 3-412 of Title 2, unless there
is created a duplication in numbering, reads as follows:

2 as amended by Section 781 of Public Law 119-37.

3 B. No license, permit, or authorization issued under this
4 program shall allow the production, processing, sale, or
5 distribution of any product that is excluded from the definition of
6 hemp under federal law, except as expressly exempted by state law in
7 Section 3-402 of this title.

8 C. The Department may promulgate rules to implement testing
9 protocols for total tetrahydrocannabinol (THC), container limits,
10 age verification, point-of-sale restrictions, labeling, packaging,
11 and exclusions for synthetic or non-naturally occurring
12 cannabinoids.

13 D. Any state agency that issues a license, permit, or other
14 authorization to any entity subject to the provisions of this act,
15 including but not limited to the Department and the Alcoholic
16 Beverage Laws Enforcement (ABLE) Commission, shall have the
17 authority to revoke or suspend such license, permit, or
18 authorization upon a finding that the licensee or permittee has
19 violated any provision of this act or rules promulgated pursuant
20 thereto. In addition to revocation or suspension, the agency shall
21 impose a civil fine of not less than Ten Thousand Dollars
22 (\$10,000.00) for each violation.

23 E. Any product that does not qualify as hemp under this
24 section, and is not exempted under state law, shall be subject to

1 the provisions of the Uniform Controlled Dangerous Substances Act,
2 Section 2-101 et seq., of Title 63 of the Oklahoma Statutes.

3 SECTION 2. AMENDATORY 2 O.S. 2021, Section 3-402, as

11 sativa L. and any part of the plant, including the seeds thereof,
12 and all derivatives, extracts, cannabinoids, isomers, acids, salts
13 and salts of isomers, whether growing or not, with a total delta-9
14 tetrahydrocannabinol concentration of not more than three-tenths of
15 one percent (0.3%) on a dry-weight basis, as defined in 7 U.S.C.,
16 Section 1639o, as amended by Section 781 of Public Law 119-37.

23 The term "hemp" does not include:
24

- 1 a. viable seeds from a cannabis plant that exceed a total
2 tetrahydrocannabinols concentration, including
3 tetrahydrocannabinolic acid, of three-tenths of one
4 percent (0.3%) on a dry-weight basis,
- 5 b. any cannabinoid that is synthesized or manufactured
6 outside the plant *Cannabis sativa L.* or that is not

12 basis or that contain any cannabinoid described in
13 subparagraph b of this paragraph, or
- 14 d. final hemp-derived cannabinoid products containing
15 greater than four-tenths milligram (0.4 mg) combined
16 total per container of total tetrahydrocannabinols,
17 including tetrahydrocannabinolic acid, and any other
18 cannabinoids that have similar effects, or are
19 marketed to have similar effects, on humans or animals
20 as tetrahydrocannabinol, as determined by the United
21 States Secretary of Health and Human Services.

22 Provided, however, that the exclusion in subparagraph d of this
23 paragraph shall not apply to hemp-derived cannabinoid beverages
24 containing ten milligrams (10 mg) or less of total

1 tetrahydrocannabinols per container that are sold exclusively to
2 persons twenty-one (21) years of age or older in a package store
3 licensed under the Oklahoma Alcoholic Beverage Control Act, Title
4 37A of the Oklahoma Statutes. Such beverages shall be subject to

22 ~~noncompliant industrial hemp with a total delta-9~~
23 ~~tetrahydrocannabinol concentration of not more than one percent~~
24 ~~(1.0%) on a dry-weight basis for retesting as set forth by the~~

~~Department as long as the noncompliant industrial hemp has a total delta-9 tetrahydrocannabinol concentration of not more than three-tenths of one percent (0.3%) on a dry-weight basis after retesting, and the option to remediate the industrial hemp through the reasonable destruction of the flower or shredding of the entire lot into a homogeneous biomass results in the remediation of any part of the industrial hemp plant that is above three-tenths of one percent (0.3%) on a dry-weight basis. All noncompliant hemp must be tracked and documented. The State Board of Agriculture shall have jurisdiction over such remediation, which includes, but is not limited to, destruction through composting, burning, or other regulated disposal methods if the industrial hemp is not remediated into a final product before processing below three-tenths of one percent (0.3%) on a dry-weight basis;~~
